### **Risk warning**

Forex and leveraged trading involve significant risk and may lead to losing capital. Be aware of the potential risks. It is suggested that you start with an amount of money that, in case you lose it, will not cause financial harm. Leverage trading is not suitable for all traders.

Non-leveraged trading, like stock trading, also carries risks, as the value of stocks constantly fluctuates, and you may lose some of your capital. Excellent past performance cannot guarantee future success. Before you start trading, make decisions based on your experience and goals, and consult a financial expert if necessary. It is the client's responsibility to ensure that, according to the laws of their country of residence, they can use the services of Aron Groups Broker. Please read the agreement form along with the broker's general rules.
